SEED CATALOGUE

1910

In placing our 1910 Catalogue for Market Gardeners before the trade we wish to say that we are better able to take care of all orders than ever before.

We have added a large FROST PROOF STORE HOUSE to our equipment for storing Onion Sets and large Onion Bulbs for our setting to grow Onion Seed. We select all stocks with great care and endeavor to improve stocks with each year.

We are lifelong seed growers and our Milford Farms are entirely devoted to seed growing and breeding and are always open to the inspection of our customers and friends.

HOW TO REACH US.

We are located on the main line of the N. Y., N. H. & H. R. R., 10 miles from New Haven, Conn., 62 miles from New York City.

Long Distance Telephone 16-4 Milford Division. Western Union message delivered by phone. Special attention paid to mail and wire orders.

HOW BEST TO ORDER.

The writing of your order on the order sheet that accompanies this catalogue will greatly facilitate our work and make mistakes less liable. Where order includes Onion Sets, Potatoes or perishable goods, state time that shipment is desired.

GIVE FULL SHIPPING INSTRUCTIONS with every order, and if freight station and P. O. address are different, make note of same. Avoid writing letters on same sheet as your order.

Try some Early Dawn Corn.

REMITTANCES.

REMITTANCES should be made in the form of EXPRESS MONEY ORDER, P. O. MONEY ORDER or REGISTERED LETTER. PERSONAL CHECK or DRAFT received from parties of established credit.

ORDERS FROM UNKNOWN PARTIES, to insure prompt attention, must be accompanied by remittance or satisfactory reference, otherwise we must send by EXPRESS C. O. D. Postage stamps, if in good condition, received the same as cash, for amounts under \$1.00.

WOODRUFF PAYS THE FREIGHT.

While the prices quoted in this catalogue are based on the customer paying the delivery charges, yet as an inducement to large buyers we make the following offer: On purchases of vegetable seeds from this list to the amount of \$8.00, where cash accompanies the order, WE WILL DELIVER FREE to your R. R. station. Except we do not pay charges on Potatoes, Onion Sets, Grass Seeds and Field Corn, which are net cash F. O. B. Milford.

Where sent by mail, 1-4 lb. and less postpaid; 1-2 lb. and over requires postage at the rate of 8 cents per lb. Peas and Beans 15 cents per qt. Corn 10 cents per qt.

DISCOUNTS.

LIBERAL DISCOUNT ON SEEDS IN PACKETS. As an inducement to our customers to get their neighbors and friends to club with them in sending their orders, we will allow each purchaser of seeds in packets to select 25 CENTS' WORTH EXTRA FOR EVERY DOLLAR SENT US. Bear in mind that this discount applies only to seeds in packets, and not to seeds by weight or measure, nor any collections we offer. Where order amounts to \$2.00 or more, ounces may be included as well as packets in this offer.

Remember, we are Actual Seed Growers.

FRENCH'S HORTICULTURAL BUSH SHELL BEAN.

Rust Proof. We beg to call your attention to this GRAND NEW BEAN which we offer for the second time this season and which we show in natural colors PHOTOGRAPHED FROM NATURE on the back cover of this catalogue. They are colored as if hand painted, longer than pole beans RUNNING EIGHT TO NINE BEANS TO THE POD and will sell themselves when placed on the market. Price, 40c per qt.; \$2.25 per pk.; \$8.00 per bush.

They will throw a runner about two feet high but it will never amount to anything and in a week or so it will drop over and disappear. They have never been known to rust or spot.

Mr. E. C. Duryea, Hempstead, N. Y., tells our Representative that our French Horticultural Bush Bean is the best thing of its kind ever introduced.

Using 1-2 bush. last year he is using 4 bush. this season.

We very strongly recommend this bean.

IF YOUR MARKET USES A COLORED SHELL BEAN DO NOT FAIL TO TRY THIS ONE.

All of the pea and bean seed that we offer is one of the finest strains, hand picked, Northern grown, has been thoroughly roughed in the field, and is sure to give satisfaction.

WOODRUFF'S EARLY WONDER BEET.

In our close touch with the largest market gardeners of the country we have met with a universal demand for a finer strain of extra early beet than they were able to obtain from any known source.

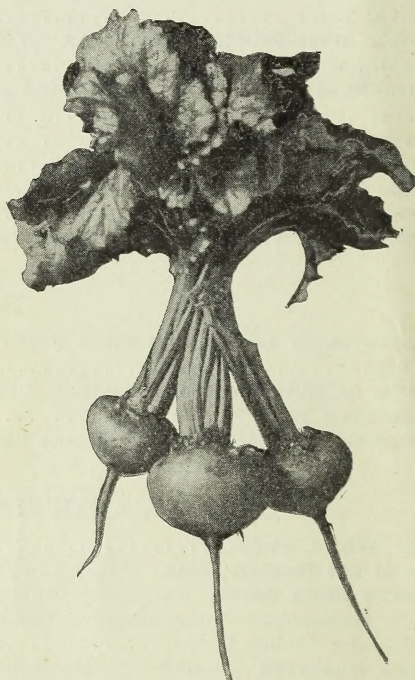

To meet the demand became our aim and for several years we have been working with this end in view, and to-day are able to offer to our customers the grand beet.

Woodruff's Early Wonder.

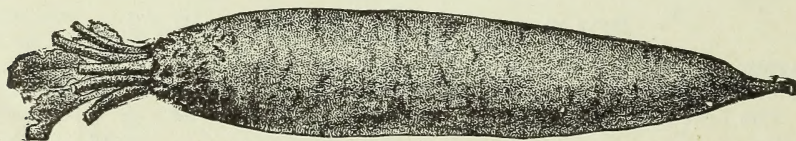

This new beet is selected for its extreme earliness, having a small top, beautiful dark red color, small tap-root, smooth surface and evenness in maturity, enabling one to clean-off the piece all at once, ready for the next crop, and while they still are bringing the early high prices.

We offer this at the following prices: 10c per pkt.; 25c per 1-4 lb.; 80c per lb.

(Add 8c a lb. if sent by mail.)

WOODRUFF'S EARLY WONDER.

LONG SMOOTH BLOOD, OUT OF THE GROUND STRAIN.

Our strain of this beet is smooth, dark red, and very fine grain and quality. Our stock has proven so far above the average the past season that our advance sales are already several times more than in 1909 all told. If you use this beet, buy it of us.

SUGAR BEET AND MANGEL WURZELS.

Norbiton Giant Mangel.

Lane's Imperial White Sugar The most popular for stock.

Golden Tankard Very productive, bright yellow flesh.

Gatepost Mangel An enormous yielder, the largest, best and most productive early mangel.

White French Sugar Very large size.

Yellow Globe Mangel Very productive variety, adapted to shallow soils.

Mammoth Long Red Mangel The most popular giant, large size and a giant cropper.

Price for each of the above varieties: Oz., 5c; 1-4 lb., 10c; lb., 30c; 5 lb. lots, 25c lb.

(Add 8 cents a pound if sent by mail.)

BRUSSEL'S SPROUTS.

Brussels Sprouts are highly esteemed for boiling during the late fall and winter months. The sprouts resemble miniature cabbages, growing closely on the stalk of the plant, a small head or sprout being formed at each leaf joint.

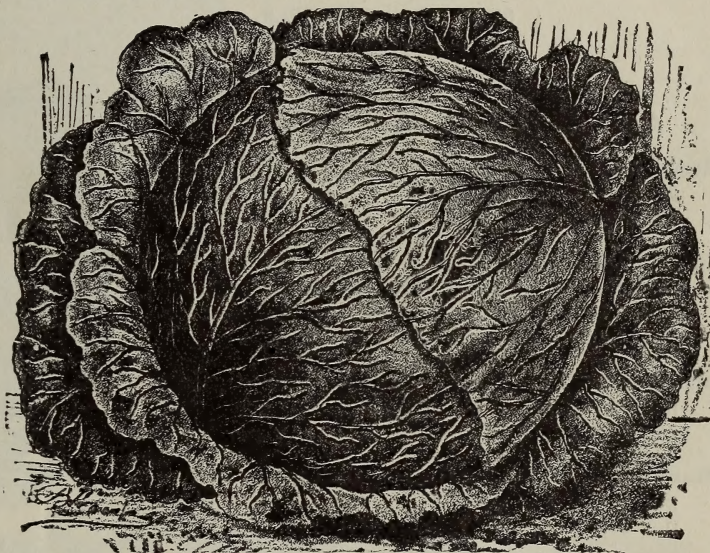

Paris Market This is a dwarf strain, bearing a large crop of handsome, round, hardy sprouts of the finest quality, crowded together on the stalk. Pkt., 5c; oz., 15c; 1-4 lb., 35c; 1 lb., \$1.25.

WOODRUFF'S HIGH-GRADE TESTED AMERICAN GROWN CABBAGE SEED.

In Cabbage Seed we aim at quality and have had many compliments and an annual increase in our sales of this very important seed. We beg to call attention to our Wakefield, All Head Early, Succession, Savoy, Rock Red, Danish Ball-Head and Stone Mason.

If you are after the early markets or want the prize crops use Woodruff's Cabbage Seeds. We fill all mail orders promptly.

Try our Danish Ball-Head.

CAULIFLOWERS.

We wish to call the attention of our customers to our strain of "Early Snowball" Cauliflower Seed. It is grown in Denmark from selected stock and is as good as money can buy. A large annual increase in our sales of this seed attest to its popularity.

Henderson's Early Snowball A very early and very reliable variety. Heads exceedingly large and finely formed. The fine features of our select strains are its fine leaf, insuring a white head, and free from leaves in the head. Price, 15c per pkt.; \$2.25 per oz.; \$7.00 per 1-4 lb.; \$25.00 per lb.

Extra Early Dwarf Erfurt Superior variety not over fifteen inches high; very early, and old favorite of fine quality. Price, 15c per pkt.; \$2.75 per oz.; \$8.00 per 1-4 lb.; \$30.00 per lb.

Danish Dry Weather 15c per pkt.; \$2.00 per oz.; \$25.00 per lb.

SNOWBALL CAULIFLOWERS.

CELERY.

This is one of the most important of seeds to the trucker, one where poor seed will entail more loss to the gardener than any other variety that we know of, owing to its sporty habit and so much seed that grows a pithy stalk.

Our stocks of standard sorts will be found pure and true to name.

Paris Golden or Self-Blanching French seed, grown by originator. Crop very short. 10c per pkt.; 60c per oz.; \$2.00 per 1-4 lb.; \$8.00 per lb.

GOLDEN SELF-BLANCHING.

CORN.

When it comes to Corn Seed we feel that we are at the top of the ladder, for we are situated at Milford, Connecticut, the world-famous town for growing the Connecticut Sweet Corn Seed, the finest the land affords. Our crop this year is of fine quality, and we can assure our customers that our corn seed will germinate extra well. Plant nothing in corn seed but Woodruff's in 1910.

The present season has been one of the best seasons we have ever known for the growing of corn seed and we wish to say that we have some of the best goods we ever had to offer.

Three seasons ago we introduced the Early Dawn Corn and it has placed itself beyond all competitors as an early corn. We test all of our corn seed before it goes out and in every way possible work to insure our customers a good crop of corn.

Hicksville, L. I., N. Y.,
Aug. 10, 1909.

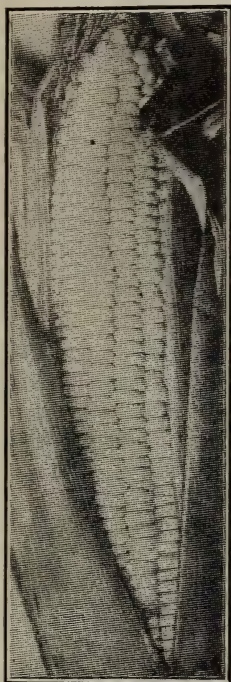

F. H. Woodruff & Sons.

Gentlemen:—Enclosed I send check in payment of my seed bill and I must say the seeds were all up to the standard as to purity, and in our three years dealing I have not received any poor seed. I hope you will continue to be careful as in the past.

Yours truly,
JOSEPH J. M'GUNNIGLE.

We have many of these letters of encouragement on file which speak of our results in giving good seed.

Do not forget the French Horticultural Beans.

EXTRA EARLY VARIETIES.

WOODRUFF'S EARLY DAWN.

We claim that this is the earliest market corn in existence. If you miss this, you miss having the earliest corn in the market.

This new corn is of the Cory type, but is much earlier and sweeter, in fact it is nearly as sweet as the Early Crosby. The fodder is about three feet six inches high. It is the earliest corn that we have ever grown. In our trial grounds and field tests this season it yielded a good picking of fine sweet corn in sixty-five days of planting. 25c per qt.; \$1.50 per pk.; \$5.00 per bu.; \$3.00 per 100 selected ears.

Red Cory One of the earliest of corns. Red cob. 15c per qt.; \$1.00 per pk.; \$3.75 per bu.; \$2.50 per 100 selected ears.

First of All A selection from Cory, ears good size, very early. Best for first early. 15c per qt.; \$1.00 per pk.; \$3.50 per bu.; \$2.50 per 100 selected ears.

Lexington, Mass.

Messrs. F. H. Woodruff & Sons.

Gentlemen:—Your seeds were all very satisfactory this season. I had a picking of your Early Dawn Corn the Fourth of July which in this northern climate makes it a wonderful early corn and the quality of the best.

Yours truly,

JOHN WEISE.

WOODRUFF'S HYBRID CUCUMBER.

Mr. A. N. Clark, Amsterdam, N. Y., tells our Representative that our Hybrid Cucumber is the best colored, best shape, best yielder and best selling cucumber he has ever grown. We have hundreds of testimonials like this. Try some.

See Photograph in Colors Taken from Nature on Back Cover.

- Woodruff's Hybrid Cucumber** Good for green-house work or outdoor planting. This grand cucumber is of a dark, waxy, green type, well formed to the ends, white spines, a great yielder and very vigorous grower, resisting blight, and growing all summer, yielding fine cucumbers from the hill to the ends of the vines. Seed that we offer of this stock was grown on our seed farms at Milford, and we urge all to try this stock.

LETTUCE.

Lettuce is the most favored of all salads, the freest from disease and insects, and the easiest grown of any vegetable. It requires a rich, moist soil, careful cultivation, plenty of water, which gives it a quick growth on which depends its appearance, tenderness and flavor. If a little care be taken, one may have a plenty of this vegetable during the summer months. There are varieties of this vegetable without number, but we have rather decided to list a few of the leading sorts, and shall aim to have them be up to the standard of excellence.

In our experience with the best market gardeners in New England the universal decision is in favor of the Salamander Lettuce.

Our stock of Big Boston is extra fine.

Big Boston A fine strain for forcing or open ground, mostly for starting under glass and transplanting in open ground, early, very large, solid heads. 5c per pkt.; 15c per oz.; 40c per 1-4 lb.; \$1.25 per lb.

Grand Rapids Lettuce This is a fine loose headed variety of superior merit and is adapted either for outdoor culture or forcing under glass. It originated at Grand Rapids, Mich., and enjoys a great reputation in the Middle West, but is now being largely grown in the East and South. It has a large compact growth of fine cut leaves. It is a quick grower, good shipper, and shoots to seed slowly, free from rot, and a general favorite where a curly head lettuce is wanted. 10c per oz.; 35c per 1-4 lb.; \$1.25 per lb.

New Early May King Valuable, new German lettuce, without question one of the best for early spring planting. The heads of a clear light green and rich oily flavor. 10c per oz.; 30c per 1-4 lb.; \$1.15 per lb.

Black Seeded Tennis Ball 5c per pkt.; 15c per oz.; 30c per 1-4 lb.; \$1.00 per lb. Our stock is extra fine.

Market Gardeners' Private Stock Prized as a main stock sort. 5c per pkt.; 15c per oz.; 30c per 1-4 lb.; \$1.00 per lb.

Salamander This variety is probably the best and most compact lettuce for outside use. It withstands the summer heat, heading well in hot weather, fine compact heads, which make it the leading sort. Our supply of this variety is ample to cover all requirements and comes to us direct from the grower. 5c per pkt.; 15c per oz.; 30c per 1-4 lb.; \$1.00 per lb.

Price of above, 5c per pkt.; 10c per oz.

MONSTROUS CARENTAN LEEK.

MUSKMELON.

Muskmelon, like other vine crops in the past five years, have been subject to blight, and it has gotten to that pass where the most growers are discouraged in trying to save a crop of this popular vegetable, or better termed fruit. Our melon crop was absolutely free from blight the past season and we feel that it will be possible to grow another crop of melons in 1910. Try our best strains. We have exercised great care in growing them and can recommend our stocks to be the best obtainable.

ONIONS.

Take notice of photograph field of Onion Seed on second page of cover. A scene on our Milford Farm. It means Reliable Onion Seed for you.

Southport Yellow Globe Our selected strain of Southport Yellow Globe is a deep orange yellow, true globe shape and a good keeper. The most valuable and popular onion on the market. Seed grown on our own farm. 5c per pkt.; 15c per oz.; 50c per 1-4 lb.; \$1.50 per lb.; 5 lb. lots and over, \$1.35.

Southport Red Globe Our true strain of Southport Red Globe, perfectly globe shaped, dark red color, of good size and a good keeper, making it the most favored red onion. Our strain is extra fine. Grown on our seed farm. 5c per pkt.; 15c per oz.; 50c per 1-4 lb.; \$1.50 per lb.; 5 lb. lots and over, \$1.35.

Sunderland, Mass., August 1, 1909.

F. H. Woodruff & Sons,
Milford, Conn.

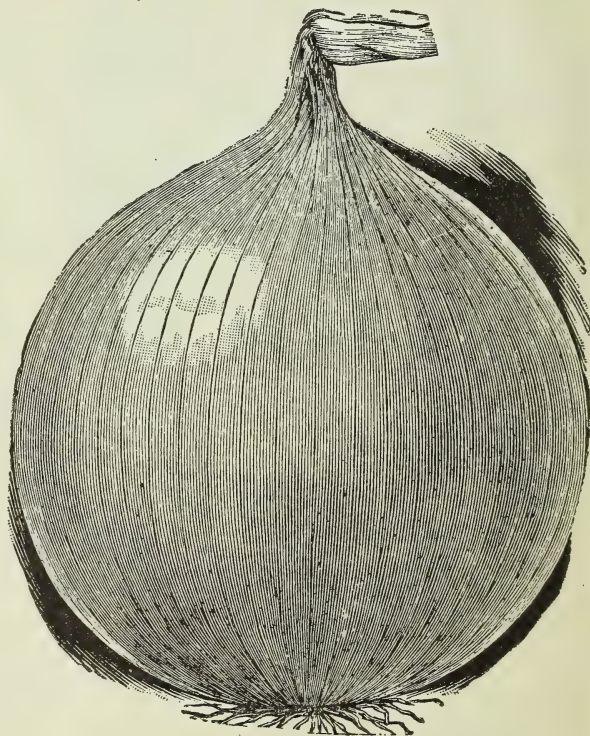

Gentlemen:—I wish to say that your Yellow Globe Danvers seed purchased from you the past season was very fine and I had the earliest ripening piece of onions in Sunderland meadows, and they sold for 10c a bag above the regular market.

Shape and color was of the best.

RICHARD W. GRAVES.

Mr. Daniel Smith, Hempstead, L. I., N. Y., tells our Representative that Early Dawn Corn is the best money maker in existence.

Southport White Globe Our true strain of Southport White Globe. A silver white ball-shaped onion of large size, bringing the highest price on the New York market. When perfectly cured to secure the perfect white color, their even, regular size, and perfect globe form gives them the appearance of silver balls. 5c per pkt.; 25c per oz.; 90c per 1-4 lb.; \$3.00 per lb.; 5 lbs. and over, \$2.75.

THE ONION.

FIELD SCENE OF ONIONS GROWN BY MR. L. H. STEMLER FROM WOODRUFF'S SEED.

The above field scene of onions was grown from our Southport Red Globe Onion Seed by Mr. L. H. Stemler and was the best crop of onions grown in New Jersey. It was planted with rows 2 feet 8 inches in width so as to be cultivated with a horse and there were harvested from one acre 300 barrels of extra fine quality onions.

Our seed farm is located on Long Island Sound, the home of the Southport types of onions, and our seed is grown under the most thorough and critical inspection from choice selected, well-ripened bulbs, and we confidently claim for it, that it is the best that is possible to produce. A few dollars saved on Onion Seed may result in big losses. Buy Woodruff's and make money.

ONION SETS.

Choice Philadelphia Grown Sets.

The growing of onions from sets for the early crop has become more popular every year until we have come to handle them in large quantities. Some gardeners find it so profitable as to set acres to these little bulbs. The extra price received for the early crop, and the great saving in weeding, many times more than make up for the extra cost of sets and setting them in the ground. We handle SETS IN FULL CAR LOTS, and are able to quote very low figures on large lots.

OUR STOCKS ARE ALL CHOICE EASTERN GROWN and will be sure to give satisfaction.

Prices are net, subject to advance. Place your order early for spring delivery.

Write us for a special price on a large lot.

All prices quoted on onion sets are F. O. B., Milford, 32 lbs. per bushel.

PARSLEY.

Parsley seed germinates very slowly, taking from two to four weeks to show above ground. Make the rows 12 to 14 inches apart, and thin to 3 or 4 inches apart. Succeeds well in hot-beds or green houses. Used for garnishing purposes, also in soups, salads, etc.

Any good soil will grow this plant.

- *Nott's Excelsior** An early wrinkled pea of value. This is a fine variety of compact dwarf growth, pods larger than American Wonder and maturing almost equally as early. The pods average 3 inches in length and well filled to the square ends. It not only yields more pods, but shells out more peas than any other dwarf varieties. Most popular second variety. 25c per qt.; \$1.75 per pk.; \$6.00 per bu.
- *Thomas Laxton** Large pods, very prolific, an even cropper of grand quality. 25c per qt.; \$1.75 per pk.; \$6.75 per bu.
Note our very low price on high grade Laxton Peas.
- *Sutton's Dwarf Defiance** New like old style Stratagem. 25c per qt.; \$1.60 per pk.; \$6.00 per bu.
- Ameer (New)** This grand new pea resembles the Alaska in manner of growth, but is a few days later; the greatest difference being in the size of the pod, which is nearly twice the size of the Alaska and slightly curved. Height of vine, two and one-half feet. The seed, green and smooth, will stand early planting. 25c per qt.; \$1.75 per pk.; \$6.00 per bu.
- *Gradus, or Prosperity** This pea we consider the grandest of recent appearing novelties. The vines have heavy stems, with large dark green leaves, and grow three feet high, producing uniformly large pods, three and one-half to four inches in length, round, and well filled with handsome peas of luscious flavor. The peas remain sweet for some time after maturing, making it possible to pick at one picking. 10c per pkt.; 30c per qt.; \$2.25 per pk.; \$8.00 per bu.
- *Gregory's Surprise or Eclipse** An early wrinkled pea. 10c per pkt.; 30c per qt.; \$1.65 per pk.; \$6.00 per bu.
- *Improved Stratagem** Greatly improved and much more uniform than the old Stratagem. Peas of first quality, large pods, valuable and reliable as a main crop, wrinkled variety. Height of vine, two feet. 25c per qt.; \$1.75 per pk.; \$6.00 per bu.
- *Duke of Albany (American Champion)** An immense podded variety, on the style of the Telephone, but earlier and superior to that variety. Height of vine, four feet. 25c per qt.; \$1.75 per pk.; \$6.50 per bu.
- *Claudit (New)** 25c per qt.; \$1.75 per pk.; \$6.50 per bu.
- *New Alderman** Vines three and one-half feet, robust, big pods, fine flavor. 25c per qt.; \$1.75 per pk.; \$6.50 per bu.

RADISH.

SCARLET GLOBE.

SCARLET GLOBE WHITE TIPPED.

Radish should be grown on light, sandy loam, and to be crisp and tender they should grow rapidly. For early use sow early in frames in January and continue the sowing once in two weeks. Early in May the seed may be sown in open ground on early soils.

Radishes may be grown to good advantage in other crops.

Early Scarlet Globe An excellent forcing variety. Is of superb quality and such handsome appearance from its brilliantly colored skin that it is most popular. Our stock of this variety has given such satisfaction that we are selling lots of 100 lbs. and over to some of the leading gardeners in New England. 5c per pkt.; 10c per oz.; 20c per 1-4 lb.; 50c per lb.; 40c, 10 lbs. and over.

SALSIFY, OR OYSTER PLANT.

SANDWICH ISLAND MAMMOTH.

Salsify is one of the most delicious and nutritious of vegetables and should be more generally cultivated for use in winter when the supply of good vegetables is so limited.

Sandwich Island Mammoth This grows uniformly to an extra large size, averaging fully the size and weight of roots of the old variety. The roots, notwithstanding their extra large size, are very superior quality and fine in flavor. A decided improvement on other sort. 5c per pkt.; 15c per oz.; 30c per 1-4 lb.; \$1.00 per lb.

SPINACH SEED.

The growing of spinach has become so general and in such large quantities, calling for so heavy a supply of seed that we import by the ton and sell on a very close margin.

We offer the following standard varieties, all of the very best of stock, at the uniform price of 5c per oz.; 10c per 1-4 lb.; 20c per lb.; 50 lb. lots at 13c per lb.; 200 lbs. and over at 12c.

EARLIANA.

TOMATO.

Earliana Nothing in the tomato line has been introduced in recent years that has proven to be of such exceptional merit as the Earliana Tomato. This tomato is not only remarkable in earliness, but is large and uniform in size, handsome shape, beautiful red color. Very productive. We have selected with care each season the earliest and smoothest specimens from large pieces for stock seed. We can confidently claim that we have as fine a strain of Earliana tomato seeds as exists. 20c per pkt.; 50c per oz.; \$2.00 per 1-4 lb.; \$5.00 per lb.

JUNE PINK TOMATO.

The **June Pink Tomato** in habit of growth is similar to the Earliana. The plant is neat and compact, branching freely, with fruit hanging in clusters of six to ten fruits, both in the crown and at the forks of the branches. The vines after the crop has been harvested are green and bright and show no tendency to blight. It ripens fully as early as Spark's Earliana and quite ten days to two weeks ahead of Chalk's Early Jewel.

In color it is a bright, pleasing pink, and in markets where a pink tomato is desired will bring 25 per cent. more in price than of any red variety. It has the further quality, making it desirable for private use, of continuing to bear and ripen fruit up until frost. All our stock is of our own growth here at Milford.

Price: 10c per pkt.; 40c per oz.; \$1.25 per 1-4 lb.; \$5.00 per lb.

We know you can buy Earliana, and June Pink Seed cheaper than above prices. We grow these seeds here at Milford, taking the seeds from the selected specimens of fruit, and considering this we think you will agree that our seed is the cheaper.

Success05	.25	.65	2.00

"Success" The fruits, set in clusters, average three inches in diameter and two to two and a half inches through from stem to blossom end. Color brightest scarlet; perfectly smooth; very meaty, of fine flavor. It ripens with the second-earliest and yields abundantly throughout the season. The handsome color, even size, and great solidity of **"Success"** make it an excellent market sort.

TYING TWINE.

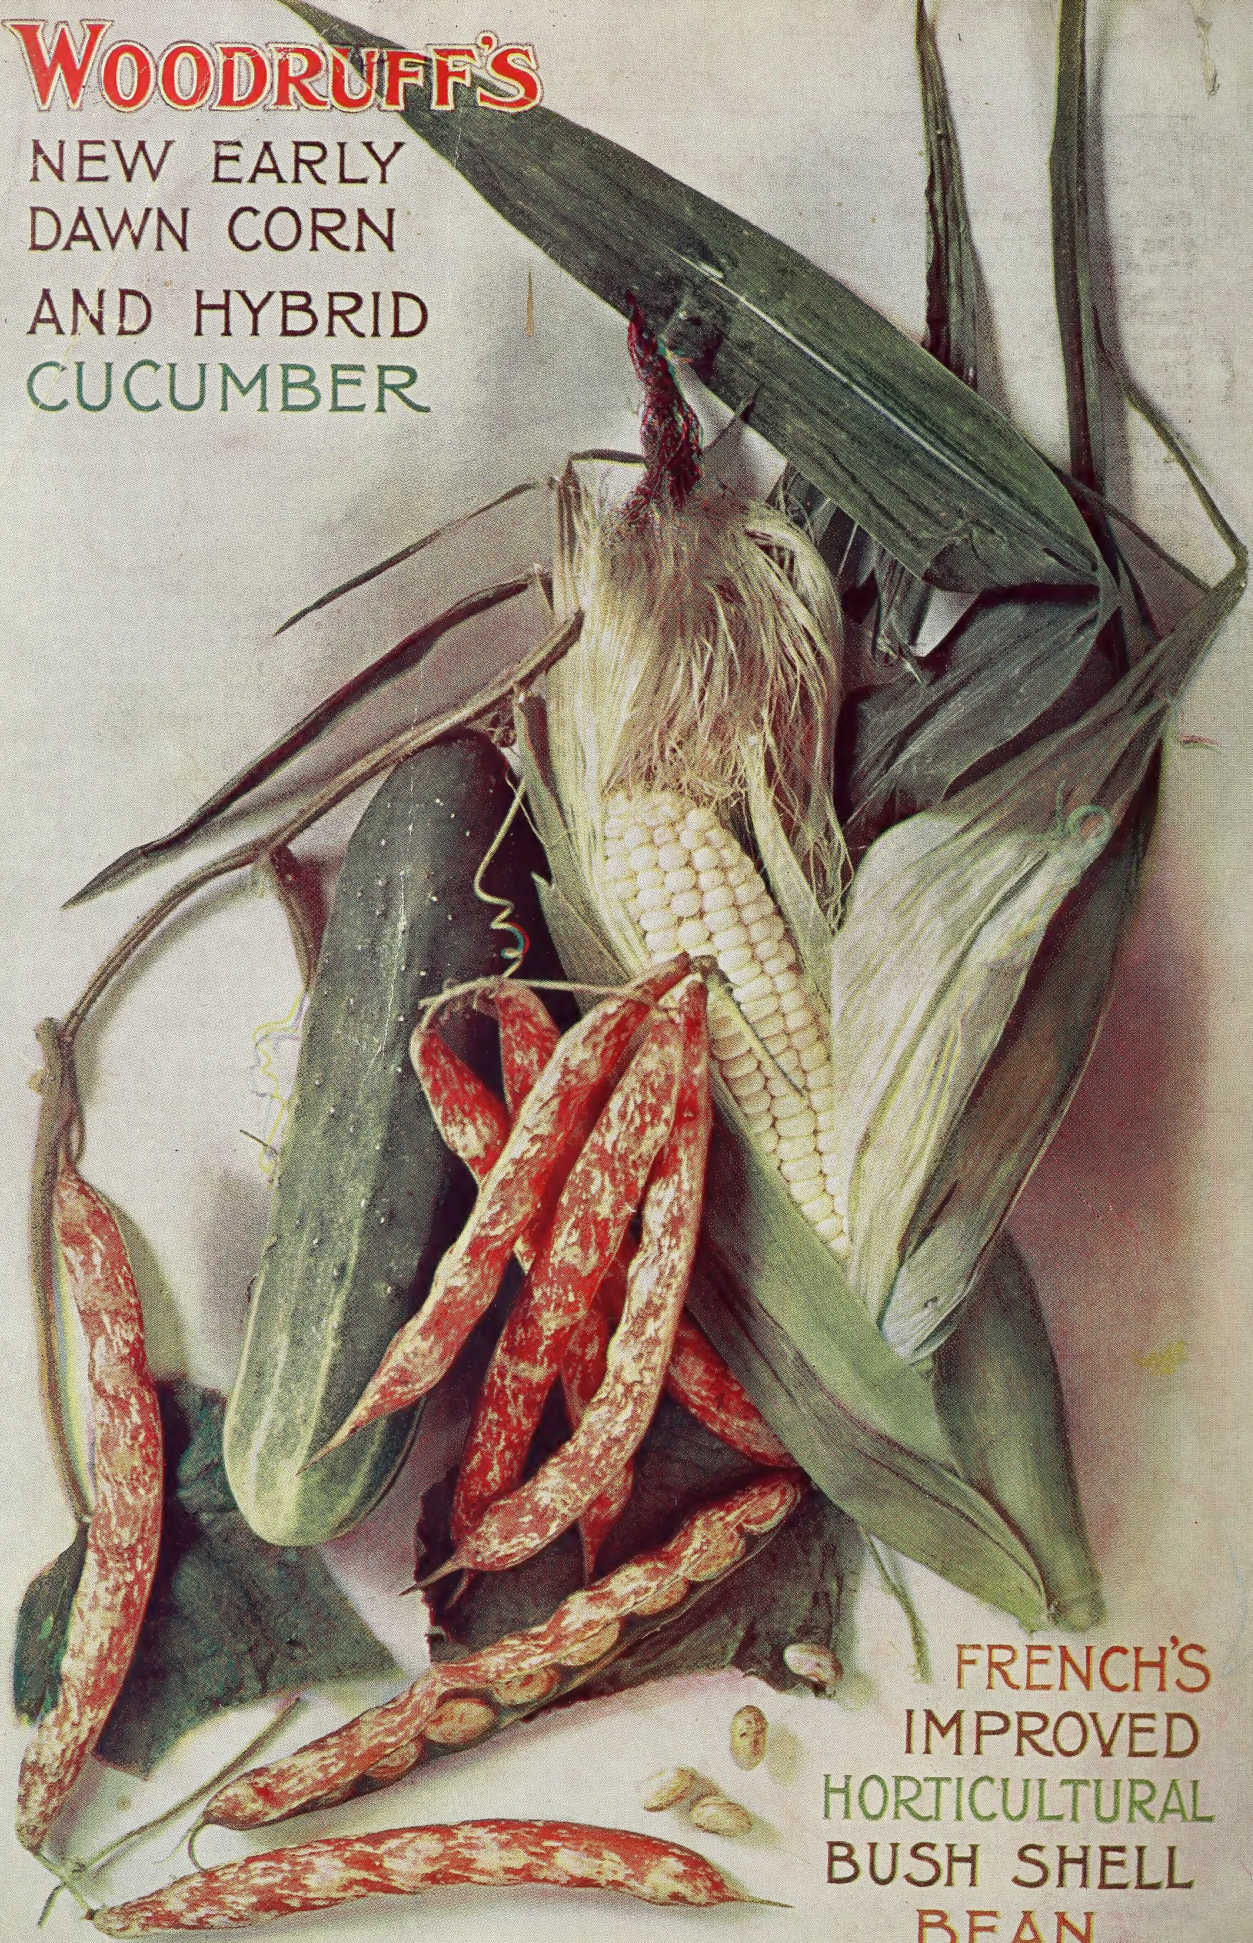

The tying twine, as shown in the accompanying cut, is the cheapest and handiest device for tying of vegetables and also can be utilized for tying cauliflowers in the field, cucumber vines in green houses, rhubarb and asparagus, and a thousand and one different uses. This twine is in the form of a loose rope (100 strings in the rope) and wound on a reel the same as barbed wire. In this manner it never becomes snarled and enables one to cut out a hundred strings any desired length instantly.

Price per reel of 50 lbs., 11c per lb. F. O. B., Milford, Conn.

The universal decision with the market gardeners is, once they have it hung in their wash house **THEY WILL NEVER BE WITHOUT IT. INCLUDE A REEL OF IT WITH YOUR SEED ORDER.**
